

## **Bird count at Ikop**

Source: Hueiyen News Service

Imphal, **February 15, 2013**: As part of the global event of Great Backyard Bird Count, 2014, People for Animals (PFA), Thoubal, Manipur has successfully conducted bird count at Ikop lake today. Volunteers of PFA selected only a very small location for accurate calculation and succeeded in identifying hundreds of birds of about 16 species. Including Manipur (PFA) observation, the total number of birds observed in the World has reached 3,3456,045 as of today. One of the remarkable sightings managed by the volunteers of PFA during the bird count today was detection of a group of 25 Cormorants. Manipur Photography Club has helped the PFA volunteers in collecting data through their lens
